## 9. ACT talks the talk on languages

This article reports that the ACT appears to be bucking a national decline in the number of school students studying languages. ACT Minister for Education and Training, Joy Burch, said that approximately 26,000 public school students were studying languages through the priority language program in ACT public schools in 2014. This represented a twofold increase since the program was introduced in 2008. Ten languages are taught in Canberra's public schools: eight priority languages (Chinese, French, German, Indonesian, Italian, Japanese, Korean and Spanish) and Latin and Hindi.

The Language Pathways Plan on the ACT Education and Training Directorate website ([http://www.det.act.gov.au/\\_data/assets/pdf\\_file/0006/123396/Language-Pathways-2014.pdf](http://www.det.act.gov.au/_data/assets/pdf_file/0006/123396/Language-Pathways-2014.pdf)) maps the availability of different language programs and ensures continuity for students seeking to continue language studies through the primary, secondary and college years. In addition, the ACT Government supports the delivery of programs in 40 languages at more than 50 community language schools across Canberra.
